LES PARTENARIATS D'EXCELLENCE

Do you like helping others and feeling useful? Then **Les Partenariats d'Excellence (LPE)** is the association for you ! Thanks to our interventions, we help **500 to 800** young secondary and high school school students in Evry (our town!) with **tutoring, guidance interventions, travels, field trips** and even a **party**. These young people are victims of inequality of opportunity, often restricted by their situation, they censor themselves, and we're here to change all that!

FORUM DES TÉLECOMMUNICATIONS

Forum des Télécommunications aims to organize events and projects that connect students with **professionals** to help develop their skills. The team consists of around thirty students from both schools (IMT-BS and TSP) who are divided into different groups. Our greatest strength lies in the **diversity** of our profiles, allowing us to create pleasant and friendly work environments.

Our flagship event is an **annual recruitment forum**. We dedicate all our resources to organizing a serious forum that concludes with an **afterwork** event in Paris. But since professionals know how to have fun too, we also organize afterwork events in Paris or teambuilding activities. In short, if you want to have fun while developing professionally, join us and discover a whole new world!

P2T

P2T is the **communications** association without which this **brochure** wouldn't exist! We carry out a wide range of missions on campus aimed at highlighting the work of students behind our clubs and associations. We also create **yearbooks** and **class hoodies** that stir up our student pride during events shared with other prestigious schools. But that's not all! We also organize events related to companies, such as meet-and-greets and even a **TEDx!**

In short, P2T is an association where you'll definitely find a way to develop professionally by working on projects closely connected with other clubs and associations on campus.

SPRINT is the **Junior-Enterprise** of the campus. A Junior-Enterprise is an association that allows students to enhance their skills by working on projects for **professional clients**.

Why become a **Sprinteur**? To receive training from professionals, gain valuable skills for the workplace that you can highlight on your CV, be part of a high-performing and close-knit team, and join the movement of **25,000 Junior Entrepreneurs**. Joining **SPRINT** offers the opportunity to take part in projects that will help you develop your skills, work for professionals, and get paid for your efforts.

FORUM ASTER

This forum is the ideal place for students and recent graduates to meet with **companies** and associations whose operations or production methods are more **sustainable** than those usually presented. The goal of this forum is to offer students a **different perspective** on work and the existing opportunities, all in collaboration with the IP Paris schools.

SPECIAL THANKS

This brochure is coming to an end, and I hope it has sparked your interest in our diverse association life. We eagerly await your arrival at the start of the new school year!

I'd like to take this opportunity to thank Sammy, Ayman, and the entire P2T team who put in the effort to keep the association running and gave their all for the students on this campus. Thanks also to all the association members and those who take the time to engage in the activities we offer, because without you, we'd definitely be quite bored. And a big thank you to Déclic for lending us the photos!

So, this was my last brochure, and I hope you'll like it. I wish the best of luck to all our future newcomers and to those who will take over our mandates for the 2024-25 year!

Roxane - VP of P2T
